

Freedom of Information Request

Reference Number: EPUT.FOI.18.576
Date Received: May 2018

***Note to Applicant:** As of 1 April 2017, North Essex Partnership University NHS Foundation Trust (NEP) and South Essex Partnership University NHS Foundation Trust (SEPT) merged to form one new organisation known as Essex Partnership University NHS Foundation Trust (EPUT).

Information Requested:

I am requesting information on the number of service users being seen in EPUT who fall under HoNOS Clusters 1, 2, 3 and 4 during the years 2016-2018. This includes inpatients and outpatients. I am particularly interested in the services covering mid Essex (Braintree, Chelmsford and Maldon), if possible.

Response:

A total of 2,596 people were on clusters 1-4 within the Mid Essex area between 2016-18.

However, please note that not all the people identified actually received treatment, in many cases the MH Cluster assessment is carried out as part of the initial assessment and the person is not taken on for treatment. Also on review if a person drops down to one of these clusters they will be discharged from the service.
