**Reference Number:** EPUT.FOI.23.2830  
**Date Received:** 10<sup>th</sup> of February 2023

### Information Requested:

Please can I be provided with the figures for the number of people without a fixed abode who have been discharged from hospitals within your trust in the year 2022?

The below readmission figures includes any patient admitted to an Mental Health Inpatient Ward who were then transferred to an acute hospital for physical care and then returned to the Mental Health inpatient bed. When transferring to another NHS organisation the patient has to be discharged and re-admitted when they return.

Please can you provide this data in the following way?

1. By annual year for 2022.

Mental Health professionals start discharge planning following admission to identify any barriers to discharge once a patient is 'clinically ready for discharge' and no longer requires an NHS bed. If a patient is NFA then 'discharge coordinators' will support the inpatient multi-disciplinary team and community care co-ordinators to identify suitable accommodation in preparation for discharge. This includes 'duty to refer to local authorities' linking in with local councils, housing and accommodation pathways so their individual needs can be assessed. Outcomes may include supported accommodation, temporary accommodation, emergency accommodation or a specialist placement. Mental health Professionals including social workers also work closely with families, carer's and wider support network including Voluntary Sector to support discharge.

On discharge all patients will have a 'wrap around' mental health discharge plan which includes a follow up appointment within 72hrs. This is national guidance.

Inpatient discharges with address recorded as NFA: 6

2. Please can you provide one figure, taking in the total discharges from your NHS Trust?

Total inpatient discharges in 2022: 2635

3. Please can I also be provided with the figures for the number of people without a fixed abode who were readmitted within six months?

≤5

Please note that the trust's policy is not to provide patient or staff numbers, where the response is less than or equal to five (≤5) as it would potentially allow identification of the individual patient/staff and would therefore be personal data. The trust considers that release of that information would breach GDPR/DPA18 principles on the grounds that it would not be fair in all the circumstances. This information is therefore exempt under section 40 of the FOI Act 2000.

4. Can you please provide this data in the same way as above?

Total inpatient readmissions (within 6 months) in 2022: 597
